ABOUT US

**GROUND SUPPORT
PRODUCTS YOU CAN TRUST
MANUFACTURING IN
AUSTRALIA FOR OVER
40 YEARS**

Split Set Mining Systems is a leading manufacturer of innovative ground support solutions for the mining industry.

With Australian manufacturing facilities and a global presence, we bring extensive experience and expertise to underground mining operations. Our commitment to safety, reliability, and customer satisfaction sets us apart, and we offer a comprehensive range of products and services tailored to enhance mining efficiency while ensuring worker safety.

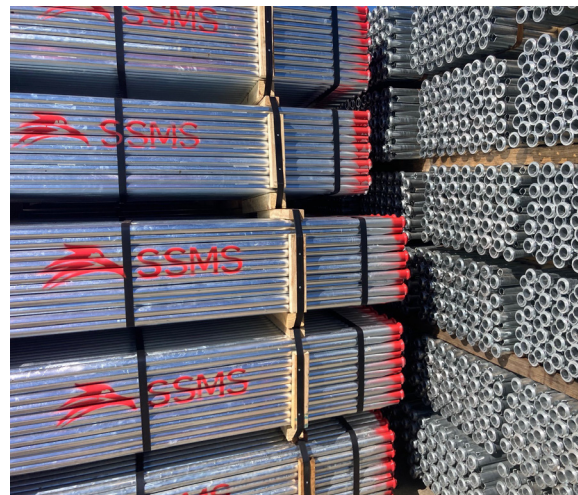

**A FULL SUITE OF GROUND
SUPPORT PRODUCTS
FROM ONE MANUFACTURER**

OUR HISTORY

Our introduction into the Mining industry goes back to when Ingersoll Rand held the original patent for the Split Set Friction Rock Bolt and in 2001 took over full production and distribution of the IR Split Set in Australia.

SSMS is the only Australian owned Ground Support Manufacturer in Australia.

OUR VALUES

Customer Service

We strive to produce high quality outcomes that are fast, accurate, useful, clear and candid.

People

We support our employees by providing an environment based on integrity, respect, responsibility and a can-do attitude.

Innovation

We are continually looking for new products and ways to do things better and instill a continuous improvement mindset in our employees.

Speed

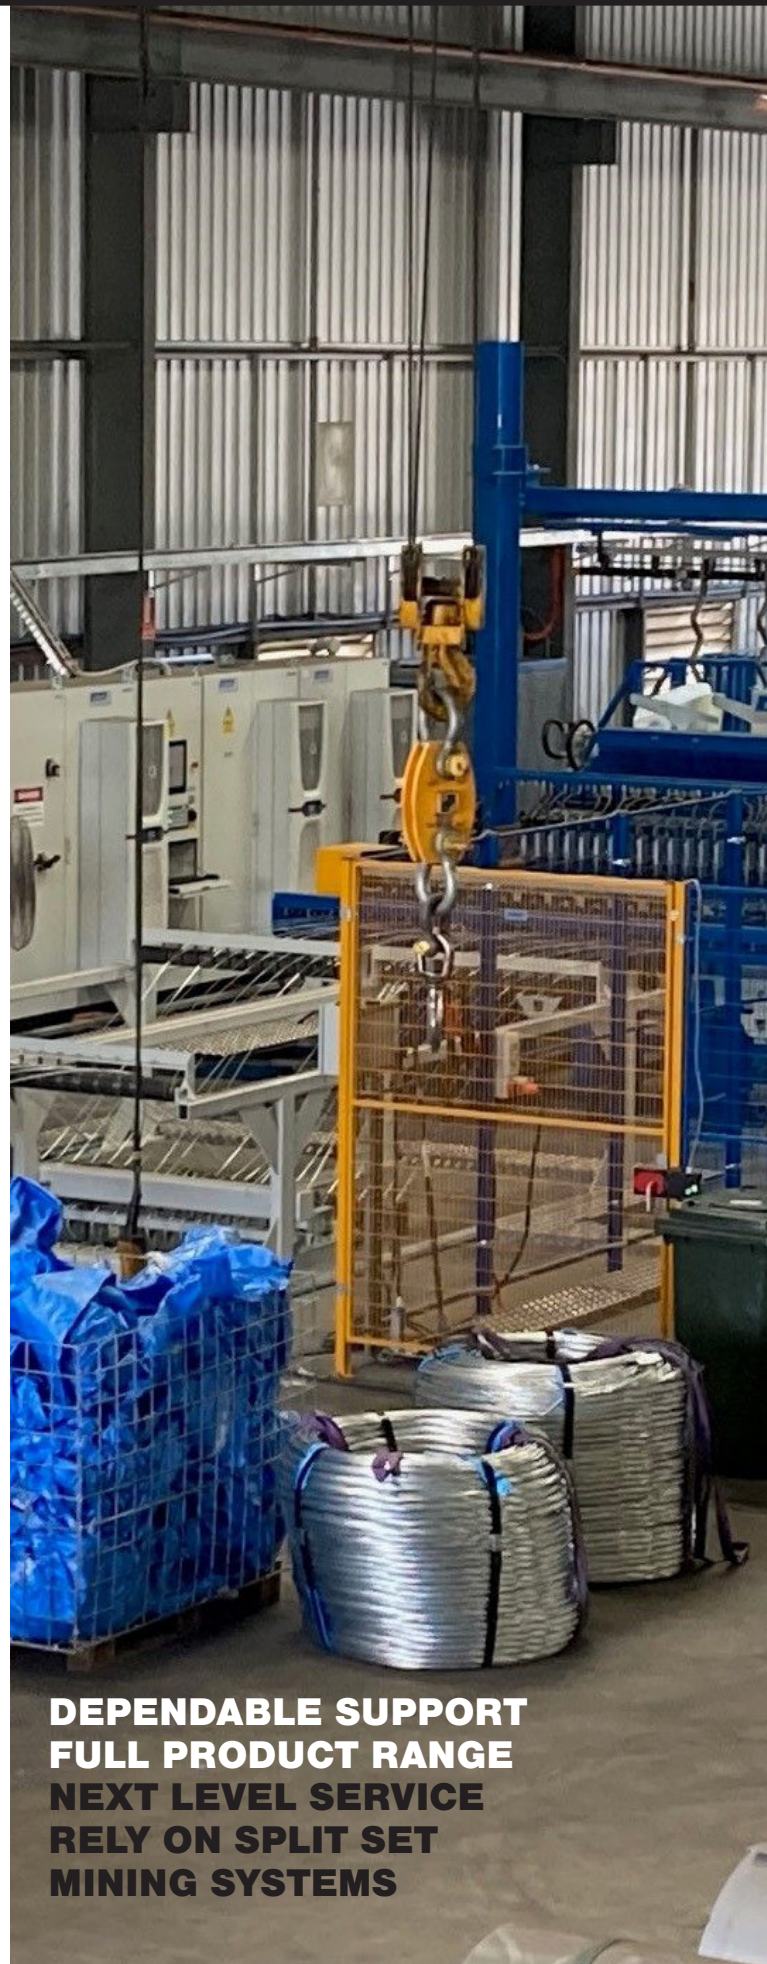

We work hard to achieve quick and superior business results by stretching our capabilities.

Sustainability

We strive to protect the world in which we live. We are compliant with ISO 14001 and are a proud supporter of Trillion Trees Australia.

Cost Effectiveness

We closely manage the cost of manufacturing products as well as purchased goods and services. This ensures that we can give customers competitive pricing.
