PHYSICAL DIMENSIONS

Mine Mesh spacing and overall dimensions can be customised to your requirements.

Wire diameters can also be changed to suit particular applications, services and be-spoke solutions.

GENERAL FEATURES

- » Available in a strap form from 4mm to 8mm diameters.
- » Edges trimmed to ensure there is limited overhang of wire so injury does not occur.
- » Additional wire wires may be added if requested to customise sheets for specific applications.

PACKAGING

- » Bundle sizes generally in packs of 50
- » Steel or plastic strapping.
- » Wooden timbers generally between each pack.
- » Bundle sizes to suit the customer if requested.
